

Science and Engineering Research Board

National Postdoctoral Fellowship (NPDF)

Important Notification on Endorsement Certificate

Considering the impact of COVID 19 in academic and research institutions in the country, NPDF applicants are allowed to submit their application along with a letter of commitment from prospective mentor/Head of the host institution (through e-mail). The e-mail should clearly state that the applicant will be mentored/supported with laboratory facilities in the event of his/her selection. A PDF copy of this e-mail should be uploaded in lieu of the endorsement certificate. A signed copy of endorsement certificate in prescribed format will have to be submitted at a later stage for the successful candidates.
